Coastal Engineering, 13 (1989) 397–398
Elsevier Science Publishers B.V., Amsterdam — Printed in The Netherlands

CONTENTS VOLUME 13, 1989

VOL. 13, NO.1 MAY 1989

Research Papers

Wave setup and runup: An integrated approach
P. Nielsen (Sydney, N.S.W., Australia) 1

A rational approach to wave friction coefficients for rough, smooth and transitional turbulent flow
D. Myrhaug (Trondheim, Norway) 11

A prediction model for stationary, short-crested waves in shallow water with ambient currents
L.H. Holthuijsen, N. Booij and T.H.C. Herbers (Delft, The Netherlands) 23

Velocities in combined undertow and longshore currents
Ib.A. Svendsen (Newark, Del., U.S.A.) and R.S. Lorenz (Copenhagen, Denmark) 55

Discussion

Stability of breakwater armour layers — Design formulae, by J.W. van der Meer
*Discussion — P. Bruun (Hilton Head Island, S.C., U.S.A.) 81
*Reply — J.W. van der Meer (Emmeloord, The Netherlands) 86

Book Review

Marine Structures. Journal by Elsevier, Barking — E.W. Bijker 91

Meeting announcements 93

Contents Volume 12, 1988 95

VOL. 13, NO. 2 JULY 1989

Research papers

Prediction of breaking wave forces on vertical cylinders
R.H. Swift (Manchester, U.K.) 97

Numerical analysis of liquefaction potential of partially drained seafloors
S. Tsotsos, M. Georgiadis and A. Damaskinidou (Thessaloniki, Greece) 117

Sand waves along the Dutch coast
H.J. Verhagen (Delft, The Netherlands) 129

A simplified function for wave energy dissipation factor over mobile beds
R.C. Nelson (Campbell, A.C.T., Australia) 149

Reflection and transmission characteristics of regular and random waves from a submerged horizontal plate
M. Patarapanich and Hin-Fatt Cheong (Singapore, Singapore) 161

Application of laser Doppler velocimetry to the study of turbulence generated by swell in the vicinity of walls or obstacles
(M. Bélorgey, J. Le Bas and A. Grandjean (Le Havre Cedex, France) 183

Book reviews

The Closure of Tidal Basins, Closing of Estuaries, Tidal Inlets and Dike Breaches, by W. van Aalst (Editor) — W.A. Price 205

Floating Ports — Design and Construction Practices, by G.P. Tsinker - W.A. Price 206

Announcements 209

VOL. 13, NO. 3 SEPTEMBER 1989

Research papers
A note on parabolic radiation boundary conditions for elliptic wave calculations
J.T. Kirby (Newark, Del., U.S.A.) 211
A nearshore profile model of wave and tidal current interaction
H.N. Southgate (Wallingford, U.K.) 219
A mathematical model for set down in harbours
J.V. Smallman and A.J. Cooper (Wallingford, U.K.) 247
Beach cusps and beach dynamics: A quantitative field appraisal
E.E. Antia (Calabar, Nigeria) 263
On-offshore bed-load sediment transport in the coastal zone
Z. Pruszak (Gdańsk-Oliwa, Poland) 273
Effect of the open sea boundary conditions on storm surge simulations
V. Subramanian, R. Mahadevan and D. Srinivasan (Madras, India) 293

Discussion
Numerical modelling of wave-induced currents in the presence of coastal structures, by P. Gaillard
*Discussion — M.R. Gourlay 303
*Reply — P. Gaillard 304

VOL. 13, NO. 4 DECEMBER 1989

Research papers
Onshore/offshore wind influence on breaking waves: An emperical study
J.S. Galloway, M.B. Collins and A.D. Moran (Swansea, Wales, U.K.) 305
Explicit modelling of bottom friction in combined wave-current flow
Donghoon Yoo (Liverpool, U.K.) 325
An experimental investigation of plunging breaker boundary layers in the transformation zone
M.S. Kirkgöz (Adana, Turkey) 341
Shear stress distribution in dissipative water waves
R. Deigaard and J. Fredsøe (Lyngby, Denmark) 357

Discussion
The continuity equation for longshore current velocity with breaker angle adjusted for a wave-current interaction, by C. Galvin
*Discussion — P.D. Komar and J. Oltman-Shay 379
*Reply — C. Galvin 385

Book reviews
A Review of Berm Breakwaters, by ASCE (Editors) — P. Bruun 387
A Review of Tides, Surges and Mean Sea Level, by D.T. Pugh — P. Bruun 388

Announcements 395

Contents volume 13 397
